

Citation

You are citing information that government nominated National Coordinators entered into one of the information system within FABISNet - a network of domestic animal information systems. Breed information (including images) is reported by countries to the Food and Agriculture Organization of the United Nations (FAO). This information may have been entered either into national information systems, regional systems such as EFABIS (<http://efabis-eaap.tzv.fal.de/>) or the Domestic Animal Diversity Information System (<http://www.fao.org/dad-is/>). Please always cite information using the most direct source to ensure that you use the most up-to-date information. Information contained in a national system should be cited from the national system (e.g. National FABIS Poland); whereas information for European countries with no independent system should be cited from EFABIS and information from other regions should be cited from DAD-IS.

Breed information

DAD-IS "insert current year". Domestic Animal Diversity Information System (DAD-IS), Food and Agriculture Organization of the United Nations.
